

2011

Delaware County Household Hazardous Waste (HHW) Collection Events

Think Globally, Act Locally!

Preventing waste in the first place is the best, least expensive method of disposal. With regard to paint, we recommend you follow the options below:

Reduce

Buy only what you need and return unopened cans.

Reuse

Use leftover paint for a second coat.

Recycle

Latex Paints can be blended together to produce beige or gray.

This Program is offered as a community service to the residents of Delaware County and is **not open to businesses, institutions or industry.**

County of Delaware

Delaware County Solid
Waste Authority

Covanta Delaware Valley,
L.P.

Pennsylvania Department of
Environmental Protection

Household products containing toxic chemicals can be a threat to people and the environment, if improperly discarded. Never dispose of hazardous materials in the trash as they may harm your sanitation workers or result in a collection vehicle fire. It is also unsafe to pour HHW down a sink or storm drain as they end up polluting the air, water, and soil.
